donhaury@southwind.net

Absentee Bids:

Stan Schulz
659 E 9th - York, NE 68467-3109
402-362-7686
mvwcnews@neb.rr.com

This auction originated as a consignment auction and we have received consignments from several people including Dough Busch who will be selling his collection over the next couple years, Dan Gaier, Don Ervin and Robert Matz. The bulk of the auction consists of the collection of Wilbur Hall of Wagner, South Dakota, His collection consists of several hundred wrenches and hammers and is especially strong in combination type tools. The hammers will be sold by The Great Planes Trading Company at auction in October in St. Louis. There will be a catalog on the Great Planes Trading Company Website at www.greatplanestrading.com by mid August.

Terms of the sale:

All bids & settlement in U.S. Currency. Cash or check with proper id. No items to be removed until settled for. Auction Co. & owners shall not be responsible for any accident or loss. Sold as is where is. No guarantees or warranties expressed or implied. Statements made sale day will take precedence over any printed ad. **We are not able to accept credit cards at this auction.**

Absentee bid policy:

Stan Schulz will be executing the absentee bids at the auction. Absentee bids may be submitted by mail, e-mail, or phone to either Stan (please call after 6:00 p.m. Central Time) or Bus (can be reached by cell phone anytime). Bid by lot number, with a statement of the maximum amount you wish to bid for each lot. Also please indicate if you are willing to go "one increment higher" if your high bid is elsewhere on the floor. **Your bid will be entered competitively at one bid increment over the next highest bid or 50 per cent of your maximum bid, which ever is higher. Thus you may purchase your item for less than your maximum bid.** A 5% handling charge (minimum of \$3.00 total) will be added to the selling price of winning absentee bids, plus shipping, insurance and sales tax if applicable. If insurance is not purchased we will not be responsible for loss or damage. Don't be afraid to submit "low-ball" bids. You could win some bargains.

We have listed some of the box lots that will be sold choice wrench and absentee bids will be accepted on these listed items. Just give us the lot number and item number when submitting your bids.

Please include your phone number or e-mail address as all absentee bidders will be notified by phone or by e-mail. Notification will be about Tuesday or Wednesday after the sale as it takes 2 to 3 days to sort, weigh, wrap, and determine the shipping charges.

Auction Catalog and Prices Realized List:

Additional printed catalogs (\$10.00) and post auction price (\$5.00) realized lists will be available. See contact information for Don Haury above.

A word on condition: Because of the character of their use and storage wrench condition can hardly be judged to the same standards as other tools. I have tried to note all faults such as missing parts, cracks, pitting, over cleaning, repairs, etc. Likewise the wrenches in this auction that are in exceptional fine or excellent condition have been so noted, even a common wrench that as survived the years in almost unused condition is a rarity. This leaves the wrenches listed with no mention of condition which covers all those that are in good to good plus collectible condition and with no major flaws.

Other info:

- * Measurements are usually rounded off to the nearest 1/4".
- * The markings on the wrenches are in all capital letters.
- * a / separates markings on one side of the wrench from the other side.
- * If a wrench is misnumbered in a photo the description number will prevail.
- * All farm type wrenches are cast malleable iron unless noted otherwise.

Order of Sale:

The choice box lots will be sold first followed by the listed lots in numerical order.

List of Wrenches - Missouri Valley Wrench Club Auction

Saturday Sept. 26 - Davenport, Iowa

Adjustable Wrenches - Group One

0001. **HELWIG MFG. CO. / ST. PAUL MINN.** - -15" all metal screw adjust monkey wrench. Rare wrench in Good++ condition.
0002. Unmarked - - 8" all metal center screw adjust nut wrench. Rare. Good++. (not listed no info found)
0003. **CLUTCH WRENCH CO / WAUKESHA, WIS.** - PAT JAN 7, 02 - - 10" all metal unique quick adjust nut wrench with a spring loaded lower jaw and set screw. Back of lower jaw casting has broken off, exceptional strong markings. (S487)
0004. **GATES BULL (or BOLT) WRENCH** - - 10.25" all metal nut wrench with an unique adjusting screw on top of upper jaw. Pat. Feb 15, 87 by Alfonso D. Gates of Cleveland, OH and mfg. by the Lorain Wrench Co. of Lorain, Ohio. Light markings, not all readable, overall light pitting. (S391)
0005. Unmarked early Bemis & Call 11" rack type quick adjust with locking thumbscrew. Rare wrench in Good++ condition.
0006. **CC PAT MAR 1, 1921 OMAHA** - - 8.5" nut or pipe wrench that is adjusted with a knurled knob or a tee handle on the end of the wrench. Patented by Gene D. Chenette of Ames, Iowa. Some pitting, jaw chips, weak but readable markings. (S463)
0007. Unmarked - - 8" wood handled center screw adjust nut wrench. Unusual wooden handle looks like it was welded on to the wrench shaft and jaw assembly. Enough examples have been seen to indicate that it was a production wrench and not shop modified. Scarce. (not listed, no info)
0008. Unmarked (Girard Wrench Mfg Co of Girard, PA) - - 7.25" all metal, malleable screw adj nut wrench patented by C. H. Miller of Erie, PA on 7-11-1882. Good++.
0009. Unmarked (Girard Wrench Mfg Co of Girard, PA) - - 10' adj. nut wrench patented by C. H. Miller of Erie, PA on 7-11-1882. Scarce size. Good Plus with some light pitting.
0010. Unmarked 15.5" all metal monkey wrench. Usually found marked with a Pennsylvania Railroad PRR in a keystone logo. Crudely made with a reinforcing bar on back of the lower jaw, similar to but more primitive than the Perfect Handle wrenches. These were reportedly made in the Altoona shops of the Penn. R.R. (unlisted?)
0011. Unmarked Collins - - 21" wood handled monkey wrench. Good Plus.
0012. **COES WRENCH CO** - - 18" knife handled monkey wrench, riveted end cap. Good++. (Page No. 63)
0013. **Diamond Edge - Shapleigh Hardware Co St. Louis, MO.** - - 18" knife handled monkey wrench. Good++.
0014. **COES WRENCH CO - L. COES PAT'D APR. 30, 1895 - MAY 15, 1900 STEEL** - - 18" knife handled nut wrench. Some minor dings, pitting. (variant not listed in Page's book, similar to No. 51)
0015. **BEMIS & CALL H. & T. CO.** - -18" all metal center screw nut wrench. Good Plus.
0016. **COES WRENCH CO. / L. COES PAT'D DEC 15, 1891, APR 30, 95** - - 15" knife handled monkey wrench, ferrule with spurs type. Good ++. (Page No. 50).
0017. **COES WRENCH CO SPRINGFIELD, MASS USA / L. COES PATS** - - 18" knife handled monkey wrench dating from after the date of Coes to Bemis & Call. Good++. (Page No. 63)
0018. **A. G. COES & CO. / A. G. COES PAT'D MAR 6, 1866** - -15" wood handled nut wrench with lock type ferrule. Back of lower jaw has hammer damage. (Page No. 12)
0019. **A. G. COES & CO.** / (steam engine governor logo) - -15" wood handle nut wrench. Good Plus with a few dings and weak markings. (Page No. 14)
0020. **THE BECKLIN WRENCH CO. SEATTLE, WASH / PAT MAR 16, 1920 (etc.)** - - 14" quick adjust rack wrench with unique pivoting release lever. Patentees were John H. Lagreid and Oscar Becklin both of Seattle. Good Plus with some minor edge dings. (S713)
0021. **14 MASTERENCH / HELLER - PATENTED (with horse logo)** - - 15.5" self adjusting wrench with both jaws serrated and square hole in end variation. Excellent.

0022. Lot of two adjustable wrenches:
 (1.) COCHRAN SPEEDNUT WRENCH, etc / PATENT PENDING - - 9" self adjust nut wrench. Excellent with original finish.
 (2.) BOOS TOOL CORP CHROME-MOLYBDENUM KC MO - PATENTED - - 8" turn handle to adjust nut wrench (with grooved top jaw and smooth bottom jaw). Patented by Joseph B. and Lyal R. Boos of Kansas City, MO. Excellent. (S381)
0023. 10 IN LARC-O-MATIC PAT 1830033 - 2351821 / CHICAGO-O.H. TOOLS HEDSTROM INDUSTRIES INC. - - 10". Excellent. (S320T)
0024. 10 IN LARC-O-MATIC PAT 1830033 - 2351821 / CHICAGO-O.H. TOOLS HEDSTROM INDUSTRIES INC. - - 10". Slightly different markings than lot 23. Good Plus. (S320T)
0025. Lot of two Carll Crescent type with reversible jaws for use as a nut or pipe wrench. The Carll wrenches were patented by A. B. Carll of Boothwyn, PA. Good Plus. (S568)

0245. Lot of two: Case Plow wrenches:
 (1.) J. I. CASE PLOW WORKS 1222 - - 10.5". Some pitting, painted. (R1-77)
 (2.) J.I.C.P. WKS. 359 - - 8.5" with hammer head. Good++. (R1-77)
0246. 040272 (Allis Chalmers) - - 6" tee handled socket wrench. (ID from parts list, not in Rathbone)
0247. TC369 (Allis Chalmers) - - 10". Good++. (R1-11)
0248. Lot of two: Grand Detour Plow Co. wrenches:
 (1.) NO 10 G - - 10" three open end variant. Some pitting. (R1-205)
 (2.) 13 - - 7.75" with hammer head. Pitted. (recently ID from parts list, not in Rathbone)
0249. 272 (Kingman Plow and American Seeding Machine) - - 9.5". Light pitting. (R1-284, R2-11)
0250. 1253T (with Case Eagle logo) (Case Threshing Co.) - - 6" Good Plus. (R1-81)
0251. M-H SPARK PLUG WRENCH 202783M1 / MADE IN CANADA - 10". Good Plus. (R1-312)
0252. Lot of two: J. D. Tower & Sons (Mendota, Illinois) wrenches:
 (1.) O - - 8" three open ends variant. Good Plus, painted, (R1-457)
 (2.) T - - 10.5" with hammer head. Good++. (R1-457)

Automotive Wrenches and Tools Including Ford "Z" Service Tools

0253. **FORD (script) - - 8" curved handle Crescent type wrench.** Rarely seen wrench that may have been used at the Ford Factory? Good++.
0254. FORD (script) 5Z165 - - 15" tee handled socket wrench for drive shaft pinion. Excellent.
0255. FORD (script) 5Z829 - - 8.5" box end by ratcheting box end wrench for transmission bands and oil drain. Excellent.
0256. FORD (script) 5Z210 (with a Herbrand logo) - - 13" offset open end wrench for flywheel cap screw. Good++.
0257. FORD (script) 3Z2034 - - 7.5 box end ratchet wrench for transmission band adjustment. Pitted.
0258. FORD (script) 3Z601 (with a Herbrand logo) - - 11.5" offset open end wrench for flywheel cap screw used only Oct. 1917 thru Apr. 1918. Good++.
0259. FORD (script) 5Z249 (with a Mossberg logo) - - 5" soe wrench for the third generator brush. (new style).
0260. FORD (script) 5Z817 (with a Mossberg logo) - - 10.5" offset double hex socket wrench for carburetor and generator bolts. Good++.
0261. HERBRAND (in script) - 2336 - - 12.5" Ford after market wrench for the fourth connecting rod, cylinder head and sparkplug wrench. Advertised in Herbrand's Catalog as fitting "over 65 different nuts on Ford cars". Good++.
0262. FORD BRAKES - 6000 / 7/16 SQ - LECTROLITE - 1/2 SQ - - 11.25" with double eight point box ends. Excellent.
0263. FORD (in script) - - 10" Ford Model "T" Truck sparkplug and cylinder head wrench. Good++.
0264. Lot of two FORD script pliers. One has been modified to use as what look like a chain riveting tool.
0265. Lot of two: Ford items.
 (1.) FORD (in script) - - T1917 - - 5.5" doe wrench.
 (2.) FORD (in script) / 54 - - 1.75" Ford Model "T" ignition key.
0266. Ford (script) - - Ford tool kit copper glad oil can in excellent condition.
0267. Unmarked - - 14" hub cap, lug wrench and tire tool for Whippet and Willys autos.
0268. Lot of two: Unmarked wooden handled bearing scrapers.
 (1.) 15.5"
 (2.) 13"
0269. TRANSMISSION WRENCH FOR FORDS - PEP MFG. CO. INC - 33 W. 42 ST. NEW YORK - PAT. PENDING ("Pep" in circle logo)- - 9" ratcheting box end combination tool. Owner's initials on reverse.
0270. CADILLAC (script) (Williams "W" in diamond log) / 29 - - 7" double open end wrench. Spot of light pitting on reverse.

0271. Lot of two: automobile related tools.
 (1.) PRESTO-LITE - - 5.75" tee handled socket wrench for early gas auto lights.
 (2.) AF310 / 3 (and a "A" in a circle logo) - - 8.5" early Chevy lug wrench with hammer and tire tool.
0272. SNAP-ON CF-71 - PAT. 2,645,142 - - 8" unusual sparkplug gap adjuster. Patented July 14, 1953 by Otto Schwenzfeier of McCook, Nebraska. Excellent.
0273. SNAP-ON - PAT. NO. 1544520 - PWA-1075 - - 6" valve clearance adjusting wrench patented June 30, 1925 by Earl P. Putrow Of Milwaukee, Wisconsin. Made by Snap-On Tools for Pratt & Whitney Aircraft. Also see lot 332 for an early unusual Snap-On ratchet adapter.
0274. INDENT. PLIERS - 429875 - - 8" pliers type cotter key puller or for livestock identification tags or ?
0275. KATY KOTTER PULLER - MPL'S / PAT APLD - - 7.5" Pliers Type Cotter Key Puller.
0276. COTTER PULLER - PAT. MARCH 1912 - BREWER-TITCHENER CORP. - CORTLAND, NY - - 6.75" neat ratcheting plier type cotter key puller.
0277. Lot of two: Battery pliers.
 (1.) HERBRAND - 179 - - 8"
 (2.) BLACKHAWK - PT-1259 - - 8"
0278. PAZZANO / PAT. NO. 19027 - - 8.25" battery pliers. Excellent. Patented by Frederick F. Pazzano of Waltham, Mass. on Feb. 21, 1933 and reissued on Dec. 19, 1933.
0279. THE TAGIT CO. INC - ROCKFORD, ILL - PAT. NO. 1853846 - - 10" rare battery terminal puller. Patented Apr. 12, 1932 by Fred Borchert of Rockford, Illinois. First one seen. Good++.
0280. Ford (script) - - 6.5" Ford Model "T" tool kit slip joint pliers. Good++.
